COMPANY BACKGROUND

CAR AUCTIONS

ADESA Europe is an [online auction website for the car trade](#). The company sells end-of-contract leasing vehicles, commercial vehicles and stock cars from leasing companies, car traders, fleet owners and car rental companies to [professional car dealers](#) across Europe, with most cars sold to Central and Eastern Europe. This qualifies ADESA Europe as an operator in the vehicle remarketing market. The selection of used vehicles includes passenger cars, vans, light trucks and damaged cars of all makes and models.

POSITION IN REMARKETING CHAIN

The basic proposition of ADESA Europe is to bypass the multiple layers of middlemen typically found in the used vehicle remarketing industry, and to minimise the distance between buyers and sellers. Less middleman margins result in a lower purchase price for buyers and a higher selling price for sellers.

TRADITIONAL – Remarketing of cars through physical auctions

ONLINE – Remarketing of cars through ADESA's online platform

BUSINESS MODEL

To name a few advantages of our approach:

- 1 partner to deal with, 1 platform, 1 process, 1 way-of-working, 1 pricing model and 1 single point of contact
- Complete administrative settlement and smooth cross-border delivery
- Customer service: online via „My account” and by phone via skilled customer service team (own language)

ADESA Europe has a unique business model that differentiates it from other vehicle remarketing parties. Unlike traditional platforms where buyers and sellers meet, ADESA Europe acts as a party in between buyers and sellers. ADESA Europe gathers market prices via an auction system, transfers the highest bids to the sellers, who then decide. As soon as the sale is closed, ADESA Europe proceeds in buying the vehicle from the seller, and in selling the vehicle to its buyer.

SIZE

ADESA Europe organised its first online auctions in Belgium in December 2004. Since then the company has opened offices in Germany, France, Italy, Spain and The Netherlands and has known a steady growth in terms of volumes and profitability. Today, with more than 250 employees, sales of 74,000 units per year and a customer base of more than 100,000 registered buyers in approximately 50 countries, ADESA Europe has become one of the leading online car auctions in Europe.

OUR STRATEGIC FRAMEWORK

HIGHLIGHTS OF OUR GROWTH STRATEGY

- Match better offer and demand through new online tools, products and services, and diversification of our sourcing partners, channels and countries.
- Serve our customers better by making doing business via ADESA Europe even faster, easier and more hassle-free.
- An excellent operating model needed to make this happen.

BRAND PROMISE

**WE SELL
THE BEST
CARS ON
THE WEB**

MISSION STATEMENT

ADESA Europe is an online auction platform for the car trade. We sell the latest used cars for the fairest prices. We are unique in exporting across every border in Europe.

VISION STATEMENT

ADESA Europe aims to be Europe's leading remarketing site and the number 1 partner in exporting to Europe and beyond.

OUR CORE COMPETENCIES

PAN-EUROPEAN

We take a Pan-European approach to facilitate cross-border transactions.

UNIQUE

We have a unique combination of expertise in remarketing, the car sector and ICT.

AUTOMATION

We industrialise all our operations to ensure service and quality at a solid cost structure.

CULTURE

We pride ourselves on our unique set of skills, experiences and cultures.

OUR CORE VALUES

PROXIMITY

Whether you are a seller, buyer, partner, supplier or employee, „you“ matter.

INTEGRITY

Acting in a trustworthy, respectful and ethical manner, and taking responsibility for it.

AMBITION

In order to grow ADESA, we help you to grow.

NEUTRALITY

We are a neutral facilitator between seller and buyer.

OWNERSHIP

Get the job done, take responsibility.
Make a commitment to deliver according to our requirements.
Perform in line with our high qualitative and quantitative standards.

- 19 languages spoken
- Real-time online logistics
- One platform for all products
- „My Account”: user interface
- Service above everything else
- Excellent claim service

„WE OFFER FAIR PRICES”

- Provide the going price rate
- A trusted go-between
- An open platform,
no subscription

„WE ARE SECURE”

- Transparency
- We accept claims
- Data confidentiality

„WE PROVIDE SOLID EXPERTISE”

- A proven track record
in remarketing
- Specialist in import/export
and VAT knowledge
- Expert assured used cars pricing

„WE ARE UNIQUE IN EXPORT”

- Import/export and VAT
- Cross border supply of
reliable cars
- Central HUBs and satellites
for on-site delivery

VALUE-ADDED SERVICES

ADESA Europe has a monthly supply of tens of thousands of quality vehicles from various channels, each with a detailed description. It would be easy to say that ADESA Europe auctions second-hand passenger cars, vans, light trucks, damaged vehicles and wrecks, but the auction company does a lot more than just that.

VEHICLE DESCRIPTIONS

ADESA Europe offers peace of mind. Its vehicle descriptions include the full vehicle details, damage report and photo gallery with images of the vehicle as well as pictures of any specific damage. For many vehicles there are even external inspection reports available.

QUALITY CONTROL AND CAR VALUATION

Most of the cars on offer at the auctions of ADESA Europe originate from leasing companies. As these cars are monitored very carefully during their service life in terms of maintenance, tires and repairs, these cars are typically in good condition. Experts of ADESA Europe produce a detailed damage report for each car, as well as a series of photos of the interior and exterior of the car. In addition, they provide a valuation assessment of the car, enabling prospective bidders to make a qualified decision.

DOCUMENTATION

ADESA Europe handles all the documents required for the legal transfer of ownership, including any specific forms or documents required for exporting the vehicle to countries inside or outside the European Union.

OPTIMO

If the buyer orders transport, he can choose for „OPTIMO“, a package of additional services:

- Payment delay:
the buyer pays directly for transport and Optimo via online payment. The total price of the vehicle is paid just before arrival of the vehicle at the HUB (via bank transfer).
- Extra vehicle inspection:
an additional professional inspection of the vehicle is organised at the destination HUB. In case additional damages are declared, ADESA Europe will provide a solution.

PAN-EUROPEAN LOGISTICS

Thanks to an extended international transportation and HUB networks, ADESA Europe provides Pan-European transport at attractive fixed prices with short delivery times. For most destinations, customers can consult the lead time and transport price in real time during the bidding process.

CUSTOMER SERVICE

Regardless of the country from which the buyer buys the car, the buyer can get in touch with their fixed contact persons within our CRM department for questions or support. 97% of our buyers are serviced in their own language.

CLAIMS DEPARTMENT

ADESA Europe has developed a Claims Policy that describes in detail what to do in case of complaints (e.g. not described damage). Via an online claim form, buyers can enter a claim which is then professionally and carefully investigated by our Claims department who come up with a solution for the buyer.
